### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Receipt is acknowledged of the amendment filed on June 13, 2006, which has been fully considered in this action.

#### ***Claim Objections***

2. Claims 2 and 4-8 are objected to because of the following informalities: The preambles in claims 2 and 4-8, should be changed from "The liquid dispenser" to --The apparatus--- in order to be consistent with the preamble of claim 1 or the phrase --A liquid dispenser apparatus-- should be inserted for the phrase "An apparatus" in claim 1. Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 10 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Gabryszewski.

Gabryszewski discloses an apparatus and method for dispensing liquid material comprising a dispensing module 14, a nozzle 18, an air valve 156 and a controller 152. As to claims 2 and 11, see figure 4, which shows an oscillating pattern.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Gabryszewski.

Gabryszewski discloses all the featured elements of the instant invention except for the step of pulsing the pressurized air at a of 500 cps to approximately 2000 cps. Note in col. 12, lines 288-59, where Gabryszewski, discloses that various pulsing frequencies and flow rates for the pressurized air can be provided to provide the pattern desired. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the apparatus of Gabryszewski pulse the air at the claimed rates, since Gabryszewski discloses that the pulse frequency can be adjusted to provide the spray pattern desired.

***Allowable Subject Matter***

7. Claim 9 is allowed.
8. Claims 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

9. Applicant's arguments with respect to claims 1, 2, 10, 11 and 13 have been considered but are moot in view of the new grounds of rejection.

***Conclusion***

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven J. Ganey whose telephone number is 571-272-4899. The examiner can normally be reached on 7:00-5:00; M, Tu, W and Th.
